## BRUNSWICK YEAR BOOK

*From the District Commissioner on behalf of the Scouters of Brunswick . . .*

We present to the people of Brunswick another year book showing the state of Scouting in our City.

Previously our year book was presented free of any advertising matter and we had hopes of being able to continue to do so, but rising costs made this a complete impossibility — so much so that for some years we did not present a year book at all and have had cause to regret the loss. Now, however, thanks to the assistance of the many trades-people of Brunswick who have taken advertising space, we are again able to present to you "Scouting in Brunswick."

It was once thought that Scouting in an industrial area would not reach the high standard reached by many of the residential areas. Brunswick has proved that it can be done, as is apparent by the greater proportion of Rovers to Scouts in this area than in any other district, the sharing of the Stradbroke Cup by 7th Brunswick Group and earlier by 3rd and 9th Brunswick Groups at the keenly contested Easter Competition at Gilwell, also the sharing of the Hoadley Hide by the Senior Scouts of 7th Brunswick Group and the number of Queen's Scouts presented at the annual ceremony at Government House.

All this is achieved by the keenness of our scouts and the ability of our Scouters to pass on to their boys not only the technical skills required but, we believe, also the spirit of scouting to put the Scout's Promise into action.

We are, however, at one great disadvantage. We are continually losing many of the younger Scouters, those whom we can least afford to, through the fact that, as an industrial area, we have no housing to offer them when they marry. Thus, though our loss is definitely the gain of many of the outer suburbs, it makes the provision of leaders a continual task for Group Scouters and Committees.

There are very many men who still live in Brunswick who have once been Scouts. Are you one of them? Don't you remember the fun you had as a Scout and the high regard in which you held your S.M.?

I appeal to you to consider your old Group and offer your services in some capacity. Don't use the old excuse "I can't give all my time to it so I'm better out of it." None of us can give all our time to Scouting and, moreover, it is not desirable that we do so. Scouters should be normal citizens who, as a part of their civic responsibility, help in Scouting because they firmly believe that the Scouting movement has much to offer the boy in his training towards citizenship, using methods which are proved efficient and, moreover, enjoyable to both boys and Scouters. We don't want Scouters to be "Scouting Cranks," but if you know anything at all of scouting and feel that you would like to know more, then don't wait, but offer now.

When an appeal is made to you to subscribe to some worthy cause, do you wait until you can give all your money? Or do you give what you can at the time the appeal is made?

Scouting, probably your old Group, can make good use of any time and talent that you can place at its disposal and will gladly welcome you.

Yours in Scouting,  
N. ANDERSON,  
District Commissioner.  
31st March, 1958.

## MESSAGE FROM MAYOR

CR. E. H. JONES, J.P.

During my term as Mayor I have had occasion to meet many of the groups which carry out various forms of Community Services within our city, among them being the Boy Scout and Girl Guides Association.

The aim of their movement is to develop the growing boy into a man capable of and willing to carry out his duty as a citizen — no mean task in the complexities and distractions of our present civilization. I commend those responsible in the Boy Scout and Girl Guide movements for the

manner in which they are carrying out their self imposed task and recommend to all thinking people of Brunswick that they give every support to the Boy Scout movement — either by offering their services as leaders or by assisting in the various committees which support the Groups in our City. For our city, and indeed our Country to advance, we need men and women who understand the wider concept of the "citizenship" and each of us has some measure of responsibility for training the citizen of the future.

With the Compliments of . . .

### 3rd BRUNSWICK SCOUTS

This Group was started in 1924 as a member of Brunswick and Coburg Local Association at St. John's Church of England, by Mr. Allan Scott. We met in Brunswick Football Pavilion and 1st Moreland Girl Guide Hall until 1934 when we opened our own Hall in Lyle Street. The Group attended Jamborees and Corroboree in Frankston, Adelaide, Sydney, Yarra Brae and Clifford Park.

December 13, 1941 was a Black Day in the history of 3rd. Our Hall was completely destroyed by fire,

losing all our valuable trophies and decorations.

By the wonderful efforts of the Group Committee we were able to open our second Hall on February 20, 1943.

During our 34 years, we have produced many District Scouters, among them being Mr. T. Wright, D.C., Mr. N. Shiels, Snr. D.C. and President to L.A., Mr. A. Wright, A.D.C. Cubs, Mr. S. Evans, D.C., Mr. W. Matthews, D.S.M., Mr. J. McClure, Secretary to L.A., just to mention a few.

Looking Back! Yes 10 years ago we were meeting in a Tin Shed at Hopetoun Avenue, West Brunswick. Our G.S.M. was Mr. Dennis Rathborne (now A.D.C. Scouts) Group strength totalled about 60 and Rover Leader was Mr. Bert Blair, now A.D.C. Rovers. Finance amounted to £400. But a very loyal Group Committee, (small in numbers) had visions of building a Scout Hall, they could call their own, with a result on June 14, 1949, a meeting was called to consider means and ways of raising money. During the years to follow a lot of hardwork and individual effort was put in and our Bank Balance grew steadily.

In July, 1949, the new Kitchener St., hall was made available to us by the Brunswick Council, where we continued to meet until August 1950, when all sections moved to our first Scout Hall at Jolly St., West Brunswick. Working Bees continued and on May 5, 1951, our hall was officially opened by the Mayor of Brunswick, Cr. Eggeington.

With our Group rapidly growing in strength it was realised how

urgent a bigger and more suitable Scout Hall was required, with a result an Extra Special Meeting was called on November 30, 1952, and it was decided that we go ahead with our rebuilding programme.

Mr. Ern. Weisheit was elected O.C. of operations and on February 7, 1953, working bees started and continued for well over 12 months.

The big day eventually arrived and what a day, yes, on March 5, 1955, the Mayor of Brunswick, Cr. Eddy, officially opened our present Scout Hall. Approximately 300 attended on this very memorable occasion.

Among those present were the County Commissioner, Mr. Lloyd Williams, Deputy Chief Commissioner, Col. Gordon Oldham, District Commissioner, Mr. Norman Anderson, and representatives from 3rd, 7th, and 9th, Brunswick Groups.

"Thanks" and "Thank You" Badges were presented by the County Commissioner, each recipient being introduced by the D.C.

During the years to follow 4th Brunswick has grown from strength to strength, and today we have four sections, namely Cubs, Scouts, Seniors and Rovers totalling 120, also a very active Group

Committee which meets regularly once a month, and most important many good friends who although they do not have any boys in the Group give us valuable assistance in many ways.

## ROVER SCOUTS

### Rovering is a Brotherhood of the Open Air

A complete Scout Group provides the greatest opportunities for each boy to develop to maturity according to the aim of the Scout Movement.

Rule number 1 says:— "The aim of the Association is to develop good citizenship among boys by forming their character — training them in habits of observation, obedience, and self-reliance — inculcating loyalty and thoughtfulness for others — teaching them services useful to the public, and handicrafts useful to themselves — promoting their physical, mental and spiritual development."

A complete group has four sections — Cubs, Scouts, Senior Scouts and Rover Scouts.

Each of these sections is a training stage and continues the character training which the prior section has also been developing.

The game of scouting was designed for boys, not for Scout Leaders or for the prestige of Scout Groups. Thus, when he is old enough, it is imperative that each boy must progress to the next stage, which caters for his more mature outlook.

If a boy is held back anywhere along the road of Scouting, his

character development will automatically suffer.

It is better to have good Scouts than to have good Scout Troops. Naturally, they usually go together

This logical progression, from step to step, along the Scouting road, leads finally to the fourth training section — the ROVERS.

Rule 254 says:—

"Rover Scouting is a Brotherhood of the Open Air and Service, the purposes of which are:—

- (1) To continue the training of citizenship given to Cubs, Scouts and Senior Scouts, with the same objects as are laid down in Rule 1, but with a wider outlook, appropriate to the age of Rovers; and
- (2) To encourage Rovers to make useful careers for themselves and to render service to the community.

Rover training covers the period during which the young man is "finding himself," i.e. developing his character and his powers, and endeavours to help him to put into practice in a wider world the principles of the Scout Promise and Law."

The Rover Scout section of a Group, caters for young men between the ages of 16½ and 23, although the average age of entry is usually 17. In the Rover Crew, which functions most democratically, a yearly programme is drawn up which caters for all interests of young men at that particular stage of their development. The training covers four aspects:—

Mental, physical, spiritual and Scoutcraft.

A Rover must learn to be independent and develop his individuality, he must accept responsibility and must practice the joy of unselfish service. Up to the Rover section he has been concerned mostly with the practical side of Scouting with its numerous facets,

but as a Rover he becomes more concerned with the ethical side of living.

His first responsibility is to establish himself as an independent member of the community by completing his education and vocational training.

On joining a crew the young man must serve up to 12 months, as a Rover Squire, during which time he does special ethical training and a minimum amount of outdoor activities. At the completion of these requirements he is invested as a Rover Scout.

The planned Rover programme caters for two forms of activities:

- (a) OUTDOOR which include, camping, hiking, skiing, boating, swimming, sports, service (i.e. assistance with Jamborees, Scoutcraft competitions, etc.)
- (b) INDOOR which include community studies, debates, individual talks, visiting speakers, visits to places of interest, socials, inter-crew visits, physical activities, spiritual studies, cultural nights, service, etc.

Our founder, Baden-Powell, said of Rover Scouts, "The training of the Cubs and Scouts is largely a preparation for rendering Service which is consummated in practice by the Rover. Such service in most cases takes the form of helping in the administration and training of the group. Thus the progressive cycle becomes complete from Cub to Scoutmaster. — he turns out further recruits for the ranks of the Scoutmasters, while for the nation he supplies young men, trained and qualified for making good useful citizens."

There are Rover Crews at 1st, 3rd, 4th, 7th and 9th Brunswick Groups.

## A MESSAGE FROM THE L.A.

Scouting — what is it?

To many parents the movement may appear to be a harmless occupation that fills in time for their growing lads, who might otherwise find worse ways of spending it. Let me assure you that Scouting has aims that are much more positive than that. Scouting is a Brotherhood of the Open Air — a Brotherhood demanding clean living, healthy bodies, high character and a sense of adventure. It has room for leaders and probably always will have.

Training courses are held frequently and are so designed as to enable young Scouters to become more efficient in their job as leaders. The Local Association is responsible for the development and encouragement of Scouting in the District and membership is open to all citizens. The powers of the L.A.

are very wide, its responsibilities are real.

It deals with application for warrants, group registrations, membership, decorations and awards, badges (for Scouts). It meets once a month and its executive consists of two representatives from each Group, the G.S.M. and Commissioners of the District.

Why not come along?

We meet the first Tuesday in each month at the Saxon Hall, (near Brunswick Town Hall) 8 p.m.

It is not a long night, our meeting is usually over about 10 p.m. So what about it? Looking forward to meeting you.

I am yours in the interest of Scouting.

R. H. Lavender,  
President L.A.

## ATHLETICS

The Local Association of Brunswick encourages athletics amongst the boys because it helps to train them in sportsmanship as well as being a helpful recreation.

Two competitions are held annually, the Swimming Carnival takes place at the Brunswick City Baths in March, and the winners receive a hide donated by the Marbut Engineering Co.

The General Athletics Sports meeting is held in October at the Wylie Park Reserve, and the winners of these sports receive a hide donated by Holeproof Pty. Ltd.

The Committee that organises these competitions is made up of two representatives from each Group who hold two meetings prior to each function.

Entries for these competitions are always received on the Monday evening before the sports and the organisers would be greatly assisted if each group made sure its entries were in punctually.

Two Brownies, Shirley Fraser

In December we joined with the rest of the District to farewell our District Commissioner (Wise Owl) and we thank her for help and encouragement which she gave during her term of office. "Wise Owl" was a welcome visitor to the Pack on many occasions.

## HOW DO I JOIN?

Admission of a boy to a Group rests with the Group Scout Master, but he will generally delegate this to the Scout Master or Cub Master: Therefore, if you are between 8 and 10½ years you should see the Cub Master, and if more than 10½ years see the Scout Master.

Any young chap aged about 16 or more, wishing to join or rejoin the Scouting game, should have a yarn to any Scout Master, Rover Leader or Group Scout Master; any of whom will be glad to introduce him to the Scouters of the Group and to the Rover Scouts.

"Can I join at once — or must I wait a while?"

Sometimes there are "waiting lists" — sometimes there are not. Why not ask? The address and meeting time of every Brunswick Group is listed in this book: in fact, there is no need to go to a meeting to ask, as the names, addresses and phone numbers of every Scouter are also listed. Give them a ring on the phone, or call on them.

"Can I become a member at once?"

Of course NOT — for we would like you to have a look at us first, and we would like to have a look at you too. You would be invited to join in some of the activities and to read a little about us, and then the Scouter in charge of the Section (whether it be Cub Pack, Scout Troop or Rover Crew) will have a yarn to you and tell you how to qualify for membership.

"What about me? I am far too old even to be a Rover Scout!"

That's OK. The same basic idea applies. Get in touch with the District Commissioner, or one of his Assistants, or the Group Scout Master of your nearest Group. Your inquiry will be welcomed, and you will be invited to see what we do, by visiting meetings, before you need make any decision

of how much time to devote to Scouting or what Section to work with.

"What about the young ladies? How did those Cub leaders get the privilege of wearing that snappy outfit?"

Just the same idea again. Get in touch with us — and we will introduce you all round the District and invite you to learn about the Game. Most Scouters of the Cub Section are ladies: Many of the Scouters in charge of the Training courses for Scouters of the Cub Section are ladies.

## QUESTIONS & ANSWERS

- Q. How much money is spent for salaries in the Brunswick Scout District?
- A. Nil.
- Q. What area does the Brunswick Scout District cover?
- A. The municipality of Brunswick as shown on the map in this book. Those border streets are in fact the municipal boundary.
- Q. What allowance is paid to Scouters for purchasing uniforms?
- A. Nil. Every uniformed Instructor or Scouter buys his or her own uniform, and the District or Group never makes any allowance for these expenses.
- Q. Do Scouters pay to go to the various Jamborees, or is there some fund which provides their travelling and camping expenses?
- A. They pay the lot themselves: Interested parents sometimes organise to run functions and raise funds to help with overseas trips, but this must be a purely voluntary effort by supporters.
- Q. Is there any paid staff in the Movement in Victoria?
- A. Yes. The staff of the Scout Shop, which is of course run on business lines by full time employees are paid, and there is a clerical staff at the State Headquarters. There is also a small staff of Commissioners who work full time from the State Headquarters on organising and developmental projects. The State's Scouter training centre at Gembrook — "Gilwell Park" is under the care of a Commissioner who resides there and works there full time.
- Q. Does all this mean that those Scouters who were seen in the mud at Wonga Park Jamboree, a couple of years ago, had actually paid so that they could go and do it?
- A. Yes, and some of them worked twenty hours on and four hours off when the going was really sticky for a day or two. (They enjoyed it). Remember — Service is nothing without sacrifice.
- Q. Were there any other examples of this sort of thing?
- A. Of course — thousands. Doctors, nursing sisters, and a host of other well-wishers cheerfully give their services to Scouting without any publicity; especially at the big shows such as Jamborees.
- Q. What is the religious Policy of the Boy Scouts Association.
- A. It is expected that every boy shall belong to some religious denomination and attend its services,  
Where a Group is composed of members of one particular denomination it is expected that the Scouters will arrange religious observances in consultation with the religious authority.  
Where a Group consists of boys of various religions they shall be encouraged to attend the services of their own denominations,  
Where it is not permissible under the rules of the religion of any boy to attend religious observances other than those of his own church, the Scouters must see that such rules are strictly observed while the boy is under their control,  
In the case of any boy who is not connected with any church, the Scouter will encourage him to get in touch with the church to which his parents belong,  
Gatherings of Scouts known by the term Scouts Own, are held in Camps for the worship of God and to promote fuller realisation of the Scout Law and Promise, but these are supplementary to, and not substitution for religious observances, and attendance must be purely voluntary.
